JANUARY / JANVIER

ARTICLES

Halvor Solheim The early stages of fungal invasion in Norway spruce infested by the bark beetle *Ips typographus* 1

K. D. Bennett Holocene history of forest trees on the Bruce Peninsula, southern Ontario 6

Jian-Guo Gao and Annette Nassuth Cytological changes induced by wheat streak mosaic virus in cereal leaf tissues 19

Kathryn M. Jacobson and Orson K. Miller, Jr. Physiological variation between tree-associated populations of *Suillus granulatus* as determined by in vitro mycorrhizal synthesis experiments 26

Monique Beuve and Hervé Lapierre Resistance to RPV barley yellow dwarf virus in the genus *Bromus* 32

George J. Wilder Comparative morphology and anatomy of absorbing roots and anchoring roots in three species of Cyclanthaceae (Monocotyledoneae) 38

X. S. Ye, U. Järlfors, S. Tuzun, S. Q. Pan, and J. Kuc Biochemical changes in cell walls and cellular responses of tobacco leaves related to systemic resistance to blue mold (*Peronospora tabacina*) induced by tobacco mosaic virus 49

Jeffrey G. Duckett and Roberto Ligrone A light and electron microscope study of the fungal endophytes in the sporophyte and gametophyte of *Lycopodium cernuum* with observations on the gametophyte–sporophyte junction 58

Gisela Cuenca and Milagros Lovera Vesicular–arbuscular mycorrhizae in disturbed and revegetated sites from La Gran Sabana, Venezuela 73

W. W. Mitchell Cytogeographic races of *Arctagrostis latifolia* (Poaceae) in Alaska 80

Koji Iwase Gluconic acid synthesis by the ectomycorrhizal fungus *Tricholoma robustum* 84

Stefan Andersson Phenotypic selection in a population of *Crepis tectorum* ssp. *pumila* (Asteraceae) 89

A. J. Kuthubutheen, G. M. Liew, and A. Nawawi ***Nawawia nitida*** anam. sp.nov. (Hyphomycetes) and further records of *Nawawia filiformis* from Malaysia 96

A. J. Kuthubutheen and A. Nawawi New litter-inhabiting hyphomycetes from Malaysia: ***Isthmophragmospora verruculosa, Iyengarina asymmetrica***, and ***Iyengarina furcata*** 101

Branka Stevanovic, Pham Thi Anh Thu, Fernando Monteiro de Paula, and Jorge Vieira da Silva Effects of dehydration and rehydration on the polar lipid and fatty acid composition of *Ramonda* species 107

Michael J. R. Mould and Jane Robb The *Colletotrichum trifolii* – *Medicago sativa* interface, in culture: a cytological analysis 114

H. B. Massicotte, J. M. Trappe, R. L. Peterson, and L. H. Melville Studies on *Cenococcum geophilum*. II. Sclerotium morphology, germination, and formation in pure culture and growth pouches 125

R. E. Redmann and M. Q. Qi Impacts of seeding depth on emergence and seedling structure in eight perennial grasses 133

Thomas Sawidis and George Heinrich Cesium-137 monitoring using lichens and mosses from northern Greece 140

Charles E. Umbanhowar, Jr. Early patterns of revegetation of artificial earthen mounds in a northern mixed prairie 145

S. G. Mansfield and L. G. Briarty Cotyledon cell development in *Arabidopsis thaliana* during reserve deposition 151

Masahiro Kato and Ryoko Imaichi Leaf anatomy of tropical fern rheophytes, with its evolutionary and ecological implications 165

Luc C. Duchesne and Pierre J. Charest Effect of promoter sequence on transient expression of the β-glucuronidase gene in embryogenic calli of *Larix* ×*eurolepis* and *Picea mariana* following microprojection 175

Christian Godbout and J. André Fortin Effects of nitrogen fertilization and photoperiod on basidiome formation of *Laccaria bicolor* associated with container-grown jack pine seedlings 181

A. R. Biggs and G. R. Alm Response of peach bark tissues to inoculation with epiphytic fungi alone and in combination with *Leucostoma cincta* 186

Victor C. Runeckles and Manivalde Vaartnou Observations on the *in situ* detection of free radicals in leaves using electron paramagnetic resonance spectrometry 192

Andrea L. Corbett, Pam G. Krannitz, and Lonnie W. Aarssen The influence of petals on reproductive success in the arctic poppy (*Papaver radicatum*) 200

Jefferson G. Lebkuecher and William G. Eickmeier Photoinhibition of photophosphorylation, adenosine triphosphate content, and glyceraldehyde-3-phosphate dehydrogenase ($NADP^+$) following high-irradiance desiccation of *Selaginella lepidophylla* 205

W. Greenaway, S. English, and F. R. Whatley Relationships of *Populus* ×*acuminata* and *Populus* ×*generosa* with their parental species examined by gas chromatography – mass spectrometry of bud exudates 212

NOTES

J. Chong, Z. Kang, W. K. Kim, and R. Rohringer Multinucleate condition of *Puccinia striiformis* in colonies isolated from infected wheat leaves with macerating enzymes 222

Kazuhiro Toyoda, Tomonori Shiraishi, Issei Kobayashi, Naoto Yamaoka, and Hitoshi Kunoh Treatment of a single plant cell with chemicals 225

Instructions to authors ix

Recommandations aux auteurs xii

FEBRUARY/FÉVRIER

ARTICLES

David J. Rawlence Paleophycology and Long Lake, Saint John County, New Brunswick, Canada, based on diatom distribution in sediments 229

J. M. Leggett, G. Ladizinsky, P. Hagberg, and M. Obanni The distribution of nine *Avena* species in Spain and Morocco 240

Warren H. Wagner, Jr., Florence S. Wagner, Anton A. Reznicek, and Charles R. Werth ×***Dryostichum singulare*** (Dryopteridaceae), a new fern nothogenus from Ontario 245

F. Jailloux *In vitro* production of the teleomorph of *Guignardia bidwellii*, causal agent of black rot of grapevine 254

Claudia Erbar Floral development of two species of *Stylidium* (Stylidiaceae) and some remarks on the systematic position of the family Stylidiaceae 258

M. Nilsson, E. Bååth, and B. Söderström The microfungal communities of a mixed mire in northern Sweden 272

Charles E. Umbanhowar, Jr. Abundance, vegetation, and environment of four patch types in a northern mixed prairie 277

Jeannette Whitton and John F. Bain An analysis of morphological variation in *Senecio cymbalaria* (Asteraceae) 285

K. A. Richardson, R. L. Peterson, and R. S. Currah Seed reserves and early symbiotic protocorm development of *Platanthera hyperborea* (Orchidaceae) 291

Jacob Garty The postfire recovery of rock-inhabiting algae, microfungi, and lichens 301

Henriette Giese Replication of DNA during barley endosperm development 313

G. A. Wheeler, E. J. Cushing, E. Gorham, T. Morley, and G. B. Ownbey A major floristic boundary in Minnesota: an analysis of 280 taxa occurring in the western and southern portions of the state 319

T. J. Gulya, T. P. Freeman, and D. E. Mayhew Ultrastructure of virus-like particles in *Plasmopara halstedii* 334

Christopher H. Briand, Usher Posluszny, and Douglas W. Larson Differential axis architecture in *Thuja occidentalis* (eastern white cedar) 340

I. Waters and J. M. Shay Effect of water depth on population parameters of a *Typha glauca* stand 349

Anil Grover and Deepak Pental Interrelationships of *Oryza* species on electrophoretic patterns of alcohol dehydrogenase 352

James A. Kolmer Effect of sexual recombination in two populations of the wheat leaf rust fungus *Puccinia recondita* 359

Suzanne S. Sanxter, Harry Y. Yamamoto, David G. Fisher, and Harvey T. Chan, Jr. Development and decline of chloroplasts in exocarp of *Carica papaya* 364

Ernst von Rudloff and Martin S. Lapp Chemosystematic studies in the genus *Pinus*. VII. The leaf oil terpene composition of ponderosa pine, *Pinus ponderosa* 374

T. T. Chang and W. H. Ko Inheritance of isozyme production and sexual reproduction in *Phytophthora infestans* 379

T. R. Seastedt, W. J. Parton, and D. S. Ojima Mass loss and nitrogen dynamics of decaying litter of grasslands: the apparent low nitrogen immobilization potential of root detritus 384

A. J. M. Van der Sman, C. W. P. M. Blom, and H. M. Van de Steeg Phenology and seed production in *Chenopodium rubrum*, *Rumex maritimus*, and *Rumex palustris* as related to photoperiod in river forelands 392

E. W. A. Boehm, J. C. Wenstrom, D. J. McLaughlin, L. J. Szabo, A. P. Roelfs, and W. R. Bushnell An ultrastructural pachytene karyotype for *Puccinia graminis* f.sp. *tritici* 401

E. Horak and O. K. Miller, Jr. *Phaeogalera* and *Galerina* in arctic-subarctic Alaska (U.S.A.) and the Yukon Territory (Canada) 414

NOTES

Christopher H. Briand, Usher Posluszny, and Douglas W. Larson Comparative seed morphology of *Thuja occidentalis* (eastern white cedar) from upland and lowland sites 434

Hironori Koga, Takao Tsukiboshi, and Tsutomu Uematsu Application of an osmium-maceration technique to observe plant–microbe interfaces of Italian ryegrass and crown rust fungi by scanning electron microscopy 438

COMMENTAIRE/COMMENTARY

MARCH/MARS

ARTICLES

Donald M. Britton and Daniel F. Brunton ***Isoetes*** ×***jeffreyi***, hyb.nov., a new *Isoetes* (*Isoetes macrospora* × *Isoetes riparia*) from Quebec, Canada 447

Ian D. Reid Demethylation of the lignin model dimer 1-(3′,4′-dimethoxyphenyl)-2-(*o*-methoxyphenoxy)-propane-1,3-diol by the white-rot fungus *Phlebia tremellosa* 453

Edward C. Yeung and Sandra K. Law Embryology of *Calypso bulbosa*. II. Embryo development 461

George W. Argus The phytogeography of rare vascular plants in Ontario and its bearing on plant conservation 469

Hilary R. Skilnyk and John N. A. Lott Mineral analyses of storage reserves of *Cucurbita maxima* and *Cucurbita andreana* pollen 491

Bernard R. Baum and L. Grant Bailey Morphometric study of three closely related South American species of *Hordeum* section *Stenostachys* (Poaceae) 496

Gijs J. H. van Rooijen, Ronald W. Wilen, Larry A. Holbrook, and Maurice M. Moloney Regulation of accumulation of mRNAs encoding a 20-kDa oil-body protein in microspore-derived embryos of *Brassica napus* 503

J. E. Staub, L. D. Knerr, D. J. Holder, and B. May Phylogenetic relationships among several African *Cucumis* species 509

Ping Chen and John N. A. Lott Studies of *Capsicum annuum* seeds: structure, storage reserves, and mineral nutrients 518

Dennis E. Desjardin, George J. Wong, and Don E. Hemmes Agaricales of the Hawaiian Islands. I. Marasmioid fungi: new species, new distributional records, and poorly known taxa 530

Hugh Tyson Relationships, derived from optimum alignments, among amino acid sequences of plant peroxidases 543

L. Shain and J. B. Miller Movement of cytoplasmic hypovirulence agents in chestnut blight cankers 557

Marguerite Kane and Paul B. Cavers Patterns of seed weight distribution and germination with time in a weedy biotype of proso millet (*Panicum miliaceum*) 562

Clinton F. Hodges Vegetative growth and sporulation of *Bipolaris sorokiniana* on infected leaves of *Poa pratensis* exposed to postemergence herbicides 568

Richard Côté, Jean M. Gerrath, Usher Posluszny, and Bernard Grodzinski Comparative leaf development of conventional and semi-leafless peas (*Pisum sativum*) 571

J. Nielsen *Ustilago* spp. pathogenic on *Aegilops*. III. *Ustilago phrygica*, with a descriptive key to all three *Ustilago* spp. on *Aegilops* 581

Jerry M. Baskin and Carol C. Baskin Role of temperature and light in the germination ecology of buried seeds of weedy species of disturbed forests. I. *Lobelia inflata* 589

Sylvia Kelso Conspectus of the genus *Douglasia* (Primulaceae) with comments on *Douglasia alaskana*, an Alaska–Yukon alpine endemic 593

David Racusen and Richard Racusen Esterase activity and structural heterogeneity in patatin from a wild potato species 597

K. Hasebe, S. Murakami, and A. Tsuneda Cytology and genetics of a dikaryotic strain of *Lentinus edodes* carrying two haplolethal factors 601

Suzanne Aldington and Stephen C. Fry Plant cell wall-lysing enzymes in the apoplast of tomato leaves infected with *Fulvia fulva* 607

George H. La Roi Classification and ordination of southern boreal forests from the Hondo – Slave Lake area of central Alberta 614

Kerry O'Donnell Ultrastructure of meiosis and the spindle pole body cycle in freeze-substituted basidia of the smut fungi *Ustilago maydis* and *Ustilago avenae* 629

John Bissett *Trichoderma atroviride* 639

Raymond Louis Tremblay Trends in the pollination ecology of the Orchidaceae: evolution and systematics 642

NOTES

Tomohiro Kiyosue, Shinobu Satoh, Hiroshi Kamada, and Hiroshi Harada Immunological detection of an embryogenic-cell protein (ECP31) during stress-induced somatic embryogenesis in carrot 651

Paul G. Harrison and Cynthia Durance Variation in clonal structure in an eelgrass (*Zostera marina*) meadow on the Pacific coast of Canada 653

APRIL/AVRIL

Canadian Botanical Association symposium on the role of structure and development in evolution
A symposium sponsored by the Canadian Botanical Association

L'Association botanique du Canada symposium : l'évolution et l'importance de la structure et du développement
Un symposium supporté par l'Association botanique du Canada

Usher Posluszny and Jean M. Gerrath Introduction 659

R. L. Peterson Adaptations of root structure in relation to biotic and abiotic factors 661

Nancy G. Dengler Patterns of leaf development in anisophyllous shoots 676

Shirley C. Tucker The role of floral development in studies of legume evolution 692

V. K. Sawhney Floral mutants in tomato: development, physiology, and evolutionary implications 701

Rolf Sattler Process morphology: structural dynamics in development and evolution 708
